

## PNEUMATIC HOSE CLAMP TOOL

**Clip clamps**

**Ø from 8 mm up to 24 mm**

**Ear clamps**

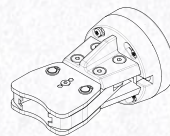

**Ø from 5 mm up to 47 mm**

Pneumatic tool is suitable for the full range of ear, clamp and clip clamps.

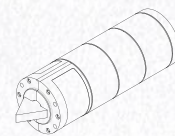

It is designed to be connected to a mains air supply which activates the jaws of the tool for fast, comfortable, force-free clamping. It offers high clamping accuracy and is ideal for jobs where clamps must be applied in series.

This tool has spare parts available for proper maintenance in case there is any wear of its components. The materials used for the jaws are of high quality and guarantee continuous and prolonged use.
