

## Stainless Steel Inner-Ring for ASFA S 12 mm Hose Clamps

This inner-ring for the ASFA S worm-drive clip with 12 mm bandwidth was designed to give extra protection to the hose, especially where it comes into contact with the underside of the clamp housing.

Inner-rings are particularly recommended for use with silicone hoses, which are quite fragile and can be cut easily. The inner-ring ensures a good fit, prevents damage to the hose and also contributes to an even distribution of pressure around the hose.

Ø D Application	Part Number Stainless steel	Part Number black	A ±2	B Max.	C ±0.15	Box Quantity	Outer Box Quantity
